

Collection Development Policy: Materials Selection Policy

The selection policy of the Dorr Township Library supports the general mission of the Library. Its foundation is the First Amendment to the United States Constitution as interpreted by the U.S. Supreme Court to affirm the right of every member of the Community to access information. In addition, the Library follows the standards of the library and information science profession and the guidance of the American Library Association as expressed in the *Library Bill of Rights** and the *Freedom to Read Statement**.

All acquisitions, before being purchased or accepted as gifts, are evaluated in terms of the following criteria and in the context of economic and space considerations. An item will not necessarily be judged against all criteria, but against those appropriate and applicable to it. These same standards determine the replacement, duplication, and withdrawal of materials.

- The Library will:
 - Support the democratic process by providing materials for the education and enlightenment of the Community.
 - Provide a collection that anticipates the needs and numbers of potential users, as well as the individual's need for information through maintenance of a well-balanced and broad collection of materials for information, reference and research.
 - Consider diverse needs for occupational and practical support, life-long intellectual and cultural growth, and recreation.
 - Consider public demand, both specific and general, as expressed through requests, suggestions, and use to develop the collection.
 - Consider the availability of the same, or similar, materials in other libraries or agencies.
 - Consider the need for all subjects covered and viewpoints expressed.
 - Consider the effect that subjects and viewpoints selected have on developing a balanced collection.
 - Consider the appropriateness to scope of the collection as it is developed.

- Selectors will consider these characteristics when selecting:
 - Literary or stylistic quality.
 - Reputations, qualifications, and significance of author, producer, or publisher.
 - Accuracy, currency, timeliness, and validity.
 - Importance and uniqueness.
 - Physical quality and effectiveness of format.

- Appropriateness of format to subject.
- Cost, as measured against competing materials on the same subject.
- Suitability for intended audience.

- Dorr Township Library affirms and endorses these General Principles of selection:
 - Selection of Library Materials is based on the relationship of such work to the needs, interests and demands of the Community. Basic to this policy is the Library Bill of Rights and the Intellectual Freedom Statement of the American Library Association to which this Library subscribes.
 - Selection is not made on the basis of anticipated approval or disapproval by patrons or Library users, but solely on the merits of a work, without regard to the race, nationality, political or religious view of the writer.
 - Responsibility for the reading matter of children rests with their parents or legal guardians. Selection shall not be inhibited solely by the possibility that books may inadvertently come into the possession of children.
 - The Library respects each individual parent's right to supervise his children's choice of reading materials. However, the Library does not have the right to act *in loco parentis* (in place of the parent). Therefore, a parent who chooses to restrict the materials his children select must accompany those children when they use the collection in order to impose those restrictions.
 - Further, Library materials will not be marked or identified to show approval or disapproval of contents, and no cataloged book or other item will be sequestered, except for the express purpose of protecting it from injury or theft. The use of rare and scholarly items of great value may be controlled to the extent required to preserve them from harm, but no further.
