

Step 1: Begin with a square sheet of **paper** and rotate it like a diamond with color side down

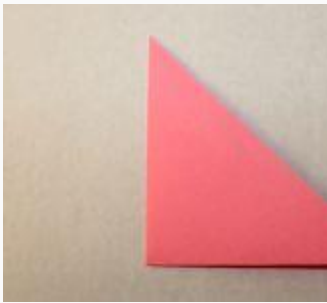

Step 6: Take the left corner and wrap the flap around the rest of the figure like you see in the picture.

Step 2: Fold the paper in half by folding the bottom corner to the top corner.

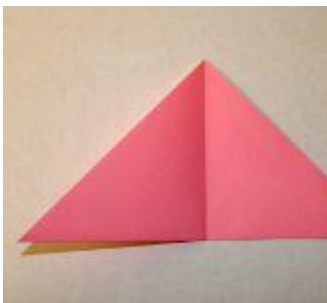

Step 7: Fold the bottom corner backwards behind the figure.

Step 3: Fold in half again by folding the left corner to the right corner.

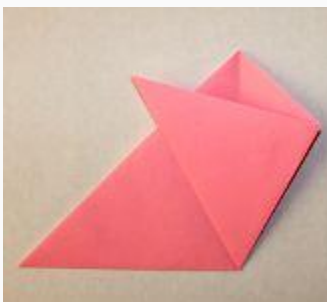

Step 8: Now take out a new sheet of paper. We're going to make the stem.

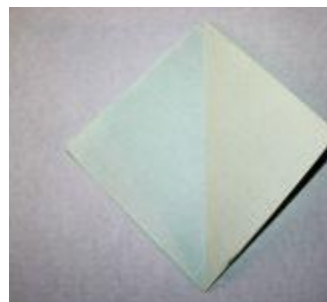

Step 4: Unfold it.

Step 9: Fold the paper in half from left to right.

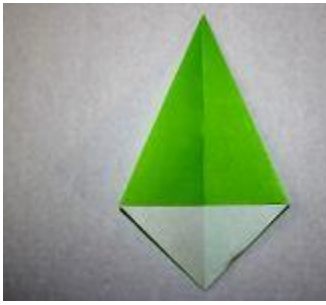

Step 5: Take the right corner and make an angled fold diagonally upwards like you see in the picture.

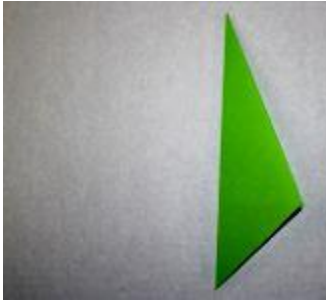

Step 10: Unfold it.

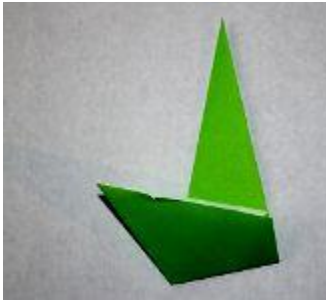

Easy Tulip and Stem

Step 11: Grab the left and right corners and fold it to the center, making sure the left and right edges meet at the center crease.

Step 12: Fold the figure in half by folding left to right.

Step 13: Take a small portion of the bottom and fold it up, aligning the right edges. It should look like the picture.

Step 14: Tape the tulip to the top of the stem. Wasn't that easy? Click "Like" if you like the easy origami tulip.
