*To sign up for programs call the library at 681-9678

PLATES 'N' PAGES

If you were a fan of our Primetime Family Storytime you are going to love Plates 'N' Pages! Bring your whole family down for dinner and a magical storytime put on by various Michigan storytellers! There will be good food, good books, fun activities, and more at Plates 'N' Pages Family Dinner and Story Night!

This program is funded by the American Rescue Plan: Humanities Grants for Libraries, an initiative of the American Library Association (ALA) made possible with funding from the National Endowment for the Humanities (NEH) through the American Rescue Plan Act of 2021.

COMICS CREATORS CLUB

This is a 12-week course for Teens in grades 7 - 12!

Sign-up April 11 through June 8. There will be weekly meetings on Wednesdays after library hours to learn the ins and outs of comic creation. The first official meeting will be on June 8, 2022, @ 6pm.

Three of the meetings will be led by professionals in the fields of comics creation and storytelling.

Participants will be working toward the creation of a published anthology of their work. The public may begin preordering the anthologies on Aug 6th during the Mini Comic-Con.

OCEANS OF POSSIBILITIES

SCIENCE NIGHT

Science night is back and wetter than ever!

Join us for water-based science experiments and activities including the always popular slime making!

Wet 'N' Wild Water Games and Messy Mayhem

Compete in a series of games to celebrate summer fun! Sign up in a group and compete within your own team to complete fun and messy challenges! Please wear a shirt and shorts that you don't mind getting wet/messy! These programs will be held outside rain or shine! Backup games will be held indoors in the event of a storm!

QUARTZ DIG

Join Steve Tchozeski, who has led our geode program for the past few years, in learning about Quartz Crystals! You will even get to dig up your own after the presentation is done!

CHALK ART COMPETITION

The chalk art competition is for families, friends, or individuals! You will have two hours to transform one of our sidewalk squares into anything that fits our ocean theme using only chalk!

Once the drawing time is done our judges will come in and choose the winner! The winner will receive a chalk set to take home with them to continue spreading their artistic talent! Popsicles and juice will be provided to all participants!

Outdoor Discovery Center: Wonderful Wetland Creatures!

Outdoor Discovery Center will share live examples of both vertebrate and invertebrate organisms that can be found in and near wetlands in Michigan. Animals may include toads, frogs, salamanders, fish, leeches, dragonflies, damselflies, and more.
