KICKOFF CARNIVAL

We're excited to kick off our Summer Reading Program with a bang at our Community Carnival! It's an afternoon filled with fun and excitement for all ages. The best part? It's completely FREE! Enjoy a variety of carnival games where you can test your skills and win fun prizes. Visit the petting zoo to meet and greet adorable animals, or have fun bouncing on the bounce house! We'll also have a selection of delicious treats from food trucks to keep you energized throughout the day. There's something for everyone, so don't miss out on the fun! Be sure to check out our Facebook Events for specific timings for each activity, so you don't miss a thing. We can't wait to see you there and help you kick off a fun summer of reading!

AIR ZOO: DEEP DISCOVERIES

Join the Air Zoo and take a deeper look at how paleontologists and archeologists piece together clues to our past that lay under the surface. Dig up artifacts and fossils and discover what they can teach us about dinosaurs, ancient creatures, and humans that have come before us. What will you discover when you dig deeper?

CREEPY CRAWLY NIGHT

Worms, Beetles, Bats and more! Unearth your story with fun, creepy crawly themed crafts, games, and snacks!

JURASSIC JAMBOREE

Wrap up Summer Reading with a roaring good time at our Jurassic Jamboree!

Join us for an exciting finale to Summer Reading! Enjoy a dinosaur walk around the library, embark on a dino-hunting adventure with Nerf guns, create with Shrinky Dinks, and much more as we celebrate the end of summer!

PREHISTORIC HERD STUFFIES & STORYTIME

Get ready for a roaring good time at our Jurassic Storytime adventure! Participants will journey back in time as we share dino-mite tales filled with friendly giants, exciting discoveries, and prehistoric fun. After the stories, everyone can bring their own dinosaur buddy to life with our provided "Stuff Your Own Jurassic Pal" kits. This program blends imagination, creativity, and hands-on fun for an unforgettable experience!

Fossils with Steve Tchozeski

Steve Tchozeski from Great Lakes Geoscience teaches us more about fossils! If we are lucky he may even have some fossils for you to dig up yourself!

Dinosaurs of Today

Are there dinosaurs hiding right here in Michigan? You might be surprised! Step back in time, and we'll learn about what made dinosaurs so unique and exciting. Then, leap forward to today, and we'll meet dinosaur relatives and neighbors in real life!

Build a Dino

Dr. Frankenstein meets...Dinosaurs? Take apart plush and plastic dino's and reassemble them into Jurassic monsters!
